

Auto Adjust Clutch Cable

Auto adjust clutch cable is a link between the vehicle and clutch system. More specifically speaking, it connects the clutch pedal to the clutch lever which engages or disengages the clutch. Then, the driver controls the lever to change gears. Our clutch cables are designed for trucks like DFM, Sinotruk, etc.

DFM (Xiaobawang 2060 mm)

Sinotruk

(1) Steyr (1980 mm-1940 mm)

Parameters of Auto Adjust Clutch Cable

Auto Clutch Cable	Truck	Sinotruk	Steyr	1980 mm
			Steyr Golden Prince	1940 mm
		DFM	Xiaobawang	2060 mm

We manufacture a wide range of speedo/tacho cables for any make or model of car. If you require a bespoke design for the speedo cable, give us the technical specifications and we will manufacture and dispatch your custom speedo cable as soon as possible. If you are not sure what kind of cable you need, give us a call and we will be happy to help you.
