

## Flexible Shafts

We are specialized in production of various flexible shafts, especially control cables for automobile, marine and engineering machinery. Our products range from choke cables to brake cables. These control cables are constituted by four tubes. The most inner one is plastic tube whose friction coefficient is the smallest among all these tubes. Then, the one outside the plastic tube is a flexible tube made of rolled steel flat. Next tube is stay cable which is stranded into bundles by multiple steel wires. The most outer tube is a plastic protective cover.

### Features

1. Flexible shafts feature small friction.

2. Its tension strength is strong and bending radius small.

3. All types of joints are available to our control cables.

### Cable Parts

**Add:** No.9,Huajia Rd,Diankou town,Zhuji city, Zhejiang,China
