

HINO Gear Shift Cable

High quality components and materials are adopted when manufacturing HINO gear shift cables. Besides, by the latest technology, our products are of long service time and highly compatibility with modern requirements. As one of the important parts in transmission system, a quality gear shift cable counts a lot to driving security. We provide a series of strict test service, such as life test, salt spray test, pull force test, etc. to clients. Besides, to meet more practical demands, we can manufacture customized HINO gear shift cables and other auto cables according to drawings and samples provided by clients. Our products have been sold to South East Asia, Middle East, South America and many other overseas areas.

We are one of the leading shift control cable exporters in China. Applying modern technology innovations, our products are characterized by smooth operation and high-load carrying capabilities. Some specially designed HINO gear shifts can work at temperature ranging from -60 °F to 360 °F. If you are not sure what type of Gear Change cable you need, give us a call and we will be glad to help you.

We manufacture a wide range of speedo/tacho cables for any make or model of car. If you require a bespoke design for the speedo cable, give us the technical specifications and we will manufacture and dispatch your custom speedo cable as soon as possible. If you are not sure what kind of cable you need, give us a call and we will be happy to help you.
