

PEUGEOT Automotive Cable

PEUGEOT auto cables produced by us mainly are brake cables, clutch cables, throttle cables, speedometer cables, etc. As its name suggests, it is considered to be a safety cable that provides brakes to the vehicle while it parked. It also helps driver to manage vehicle position while driving on slanting roads. Equipped with advanced production line and inspection devices, we can manufacture multiple kinds of high quality cable products no matter according to specifications offered by us, or in compliance with the specific drawings or samples provided by clients. Our products, including PEUGEOT auto cables, meet ISO9001:2008 standards and win good reputation among clients from Asia, Europe, Middle East, Africa, etc.

Features

1. It fulfills the standards required by OEM.
2. Protected by plastic coat, it features strong corrosion resistance and long working life. Besides, its strength has passed strict special test.
3. Our PEUGEOT auto cables are with OE-style brackets and end fittings, which makes installation easier and guarantees a fit identical to that of the original cable.

We are specialist flexible shafts and tubes manufacturer in China, and can provide you with help or advice on installation and maintenance of handbrake cables, or provide you with a new one. Our hand brake cable sizes depend on your requirements.

We manufacture a wide range of speedo/tacho cables for any make or model of car. If you require a bespoke design for the speedo cable, give us the technical specifications and we will manufacture and dispatch your custom speedo cable as soon as possible. If you are not sure what kind of cable you need, give us a call and we will be happy to help you.
