

RENAULT Automotive Cable

RENAULT automotive cable is composed of HDPE inner conduit, steel wire strand, PVC tube, etc. It is considered to be a safety cable that provides brakes to the vehicle when parking stationarily or driving on the slanting roads. As dedicated throttle/clutch/brake/shift cable maker, we have designed and manufactured more than one thousand kinds of cable products for trucks, coaches, agricultural vehicles, ships, engineering machinery, etc.

Our RENAULT automotive cables, as well as other cable products, are all tested before they are produced and sold as a matter of course, and we offer a tailor-made service in case our in-house cables do not fit your needs, we can create bespoke hand brake cables (compliant to the ISO9001:2008 quality systems requirements) for you.

We manufacture a wide range of speedo/tacho cables for any make or model of car. If you require a bespoke design for the speedo cable, give us the technical specifications and we will manufacture and dispatch your custom speedo cable as soon as possible. If you are not sure what kind of cable you need, give us a call and we will be happy to help you.
