

TOYOTA Accelerator Cable

We can manufacture accelerator cable specially used for TOYOTA vehicles. The throttle control cables are composed of inner cables and outside casings. Main materials for this cable are high carbon steel, green zinc alloy, HDPE, PVC, EPDM, etc. Our company also supplies specific products according to clients' requirements. Besides, if a drawing or sample is given for reference, we can re-manufacture this kind of product as the client want.

Due to high quality and competitive price, our TOYOTA accelerator cables and other products are popularly sold in both domestic and overseas market. We have a specialist R&D center as well as a series of laboratories for life test, pull-out force test, salt spray test, and so on. Our company also supplies many other cables suitable for trucks, agricultural vehicles, engineering machinery, marine machinery, and so on.

We manufacture a wide range of speedo/tacho cables for any make or model of car. If you require a bespoke design for the speedo cable, give us the technical specifications and we will manufacture and dispatch your custom speedo cable as soon as possible. If you are not sure what kind of cable you need, give us a call and we will be happy to help you.
